Empowerment as a Mission...

Empowering Everyone in Amrit Kaal

"For me, those who are poor, those who are impoverished, those who are marginalized, and those for whom the doors of governance have long been closed—the ones forgotten by all—are the ones Modi serves first. And it is not merely about serving; Modi holds them in deepest reverence. To me, every poor citizen of this nation is a VIP. Every mother, sister, and daughter of this country is a VIP. Every farmer of the country is a VIP. Every youth of the country is a VIP."

When the vision of a nation's top leadership is so comprehensive, nothing can stall the journey of empowerment.

This momentum, which began in 2014 under the leadership of Prime Minister Narendra Modi, has transformed today into an unstoppable force.

There was a time when half the nation's population, its youth, the marginalized, and the farmers were all left to their own fate. In such times, when the nation's leadership changed twelve years ago, it infused a fresh perspective into the very core of policy-making.

Prime Minister Narendra Modi took a grand resolve to transform India into a developed nation, turning a sharp focus toward those sections of society who were once completely forgotten. He did not merely acknowledge them; he held them in the highest reverence.

The four pillars that he identifies as the very foundation of a developed India come together to form "GYAN"—representing the Garib (Poor), Yuva shakti (Youth), Annadata (Farmers), and Nari shakti (Women).

Empowering Women: The Core of Progress

There was a time when women's

"Today, the nation's goal is a developed India, a strong India! We must not stop until we achieve the dream of a developed India. I am confident that every youth will embrace this dream and take this responsibility of the nation upon their shoulders."

– Narendra Modi, Prime Minister

empowerment was viewed through a very narrow lens, and social evils like Triple Talaq continued to persist. Today, women's empowerment goes beyond social justice. It has emerged as a key pillar of inclusive development and economic progress.

From the armed forces to startups, from the Olympics and Paralympics to research—the daughters of New India are leading the charge in every domain. Triple Talaq has now become history. IMF data indicates that bringing women's workforce participation at par with men could expand India's GDP by 27%.

Driven by this very spirit, the mantra of 'Women-led Development' has today become the foundation of our national policy. The Central Government also remains steadfastly committed to ensuring a 33% reservation for women.

Without women power, the prosperity of the nation is incomplete, this is the basic mantra of India's policy today.

The prosperity of a nation is incomplete without the Nari Shakti (Women Power); this is the foundational ethos driving India's national policies today.

The Power of Youth: Amrit Peedhi

Today, India is the youngest nation in the world. The National Education Policy has fortified our foundational framework, and robust skill development initiatives have opened up uncharted avenues of growth. From launching startups to building unicorns, from the soil of the earth to the frontiers of space—our youth are manifesting every aspiration. The Prime Minister's clarion call, 'Yahi Samay Hai, Sahi Samay Hai, Bharat Ka Anmol Samay Hai' (This is the time, the right time, India's invaluable time), stands as the ultimate vision for a developed India, powered by its youth.

Farmers: Foundation of Aatmanirbhar Bharat

The empowerment of our farmers forms the definitive foundation of Aatmanirbhar Bharat. Minimum Support Price (MSP) has been guaranteed at 1.5 times the input costs, driving forward the objective of doubling agricultural incomes. Transforming the landscape, initiatives like the Agri Infra Fund and the e-NAM digital marketplace are putting power back into the hands of farmers. These achievements reflect the transformative progress made over the last 12 years.

As Shri Anna (Millet) captured the global stage, India proudly entered the ranks of the world's top ten agricultural exporters for the first time in history.

Prioritizing the Marginalized: Ensuring a Life with Dignity

Before 2014, core basic necessities remained out of reach for millions.

"Reaching the office of President is not my personal achievement; it is the achievement of every poor person in India. My election is proof that the poor in India can both dream and fulfill their dreams."

- Droupadi Murmu,

Hon'ble President's First Address

Breaking away from the past, the government launched an active crusade to personally reach those who had been overlooked for decades. From day one of his administration, Prime Minister Modi established 'Priority to the Underprivileged' as the core tenet of governance.

Their lives have been transformed over the past 12 years. Empowered with a life of dignity, they have now become vital partners in the nation's progress. With consistent year-on-year increases in budgetary allocations for SC and ST communities, their representation and active involvement in education, employment, and industries have reached new heights.

India's journey into its golden era marches on

The last 12 years have marked a transformative chapter in empowering the poor, women, youth, and farmers. Guided by Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas, India's development journey has become a people's movement, with every citizen as a stakeholder in nation-building. Now, carrying forward the solemn resolve of a Developed India (Viksit Bharat), this continuous stream of mass empowerment flows unabated, touching every single life.

Chapter 1

REDEFINING DEVELOPMENT THROUGH WOMEN'S LEADERSHIP

A decorative graphic in the bottom right corner consisting of two overlapping circles. The outer circle is a light beige color, and the inner circle is a slightly darker shade of beige. They are positioned such that the inner circle appears to be in front of the outer one, creating a layered effect.

Transforming nearly

11 crore

kitchens into smoke-free
spaces under the
PM Ujjwala Yojana

- 20% decline in respiratory diseases among women
- Significant reduction in other health-related complications
- Time saved in daily household chores, increasing productivity
- Greater convenience for families, helping children reach school and working members reach their workplaces on time
- Enhanced environmental protection through controlled deforestation
- Recognized by World Energy Outlook as the single largest initiative for women's empowerment

**A New Era of
Ease and Independence
Through Welfare Schemes**

Economic Empowerment
Through **PM Jan Dhan Yojana**

32 + Crore Women
Empowered with
Bank Accounts

- Ensuring every citizen of the country is empowered with a bank account through Jan Dhan
- Government subsidies are now reaching the poor directly into their accounts
- Spearheaded the creation of a robust infrastructure combining Jan Dhan, Aadhaar, and Mobile
- Recognized as a monumental initiative for inclusive growth, financial security, and mass empowerment

3 + Crore

Women Farmers Benefiting from **PM-KISAN**

- Direct financial assistance has made farming smooth and hassle-free
- Eliminates the dependency on local borrowings

Pathways to Self-Reliance
Over 10 Crore Rural Women
Empowered Through

91+ Lakh

Self-Help Groups (SHGs)

- A vital pillar for women's livelihood and self-employment
- Instrumental in helping rural women become 'Lakshpati Didis'
- Contributing to the rural economy as Krishi Sakhis, Bima Sakhis and community leaders

Transforming Dreams into
Reality Women Entrepreneurs
Empowered with

₹16 + Lakh
crore

in Loans Under
PM Mudra Yojana

Securing the future of
daughters through
**PM Sukanya Samridhi
Yojana**

4.5+ crore

bank accounts opened

- Daughters are becoming financially secure and prosperous
 - Freedom from anxiety regarding expenses for higher education and marriage
 - Transformed mindsets, leading to a visible improvement in the sex ratio
-
- Access to affordable, collateral-free and easy loans
 - Women receive 2 out of 3 loans
 - Women-owned enterprises receive approximately 70% of loans

3 + crore

Lakhpati Didis
are emerging as the new face
of rural India

- Target to create 3 crore new 'Lakhpati Didis' by 2030

3 + crore

women-led MSMEs
are contributing to the
nation's progress

7.3 + crore

pregnant women have been integrated into health check-ups under the **PM Surakshit Matritva Abhiyan**

- Timely screening and identification of conditions like hypertension, diabetes, and anemia
- Early detection of high-risk cases prior to delivery
- Reduction in both maternal and infant mortality rates
- A strong step toward achieving SDG

Pregnant women received financial assistance of **₹20,000+ crore** under the **PM Matru Vandana Yojana**

17 + crore women workers are registered on the e-Shram portal

- Empowered with a distinct identity through integration into the national database
- Making it easier than ever to connect with social security and welfare schemes
- India leads in female labour force participation growth among BRICS countries

Prioritizing Women's Health, Hygiene, and Well-being

Sanitary pads are available for just

₹1 at Jan Aushadhi Kendras

- Over 105 crore sanitary pads have been made accessible so far
- Improvement in menstrual hygiene management.
- Protection against infections and related diseases

Impact of 12 Years of Good Governance

- 1 **Gender Ratio at Birth**
- 2 **Female Enrollment in Higher Education**
- 3 **Hospital Deliveries**
- 4 **Access to Sanitation Facilities**
- 5 **Self-Help Group (SHG) Membership**
- 6 **Maternal Mortality Rate**
- 7 **Women Officers in the Armed Forces / Security Forces**
- 8 **Paid Maternity Leave**

When a woman becomes financially independent, her voice within the household grows stronger. Guided by this vision, our priority has not only been to assure comfort and security but also to actively boost our sisters' economic participation. Continuous welfare of women has always been the highest priority in our government's policies.

— Narendra Modi, Prime Minister

Moving Forward on the Path of Progress...

A 12-Year Journey

Women are leading the startup ecosystem

48%

of DPIIT-recognized startups have women directors

3+ lakh

women supported via
Shakti Sadan; 5+ lakh via
Sakhi Niwas

12+ crore

toilets built to ensure
privacy and respect

5.4+ crore

children and **1.3+ crore**

“

I have resolved to make every corner of India developed. To fulfill this resolve, every atom of my body and every moment of my life is dedicated to the service of you all. And to make India developed, there are four primary priorities: the Poor, Farmers, Youth, and Women (Nari Shakti). If these four pillars are empowered, then every society, every section of society, and every family in the country will be empowered.

— Narendra Modi, Prime Minister

सत्यमेव जयते

Government of India
